

THE MANY BENEFITS OF A NEURABILITIES APPROACH TO CARE

A team approach to investigating the biological cause of each patient's symptoms.

Extended appointment times so patients can share their needs and concerns.

Access to advanced technology and neurogenomic testing.

A team of experts working together to create the best possible treatment plan.

Non-pharmacological treatment options available when medication is not recommended.

Ongoing education and support provided to patients about their diagnoses.

3-Year Accreditation

MISSION

To transform the lives of patients through precision medicine, behavior sciences and therapeutic treatments with compassion, dignity and respect.

VISION

To provide hope and achieve positive outcomes for those we serve.

OUR DIVISIONS

Neurosciences

We are transforming healthcare for our patients and families through expert, comprehensive, and innovative neuroscience services with a personalized approach. Our medical and neuropsychological providers look beyond symptoms to find the cause of each individual's concerns and determine the most appropriate treatment approach.

Autism Services

Our team of physicians, psychologists, Board Certified Behavior Analysts, and ABA therapists evaluate and treat children using evidence-based practices, compassion, and respect.

Creative Arts Therapies

Creative Arts Therapies use distinct arts-based interventions to improve physical, emotional, cognitive, and social health under the guidance of a credentialed, professional therapist.

Developmental Services

Our developmental specialists, including developmental pediatricians and behavior specialists, are available to evaluate and treat concerns and symptoms associated with learning, behaviors, and developmental milestones of children, adolescents, and young adults.

Psychological Services

Our psychological services assist in creating treatment plans for home and school settings and monitoring the benefit of those interventions. Assessments are customized to meet the individual needs of each patient.

Connected Family Therapy

Individual and family therapy services are available to provide supports within the family unit. Specific and individualized goals are created to support improved communication, emotion regulation, and executive functioning. Service available in PA only.

OUR TEAM

Our commitment to our organizational values starts with our team members. We are caring individuals with dedication to excellence and quality patient care. We are neurologists, developmental pediatricians, neuropsychologists, psychologists, Board Certified Behavior Analysts, Special Education Teachers, Registered Behavior Technicians, Licensed Professional Counselors, and more.

OUR PATIENTS

NeurAbilities Healthcare provides services for infants, children, adolescents, and adults who are seeking answers to neurological, behavioral, developmental, cognitive, and academic concerns.

Through our collaborative and coordinated approach, patients receive personalized care, providing them with the ability to maximize their unique potential and achieve meaningful outcomes.

Together we work with patients and their families to ensure they receive the highest and most appropriate level of treatment with compassion, dignity, and respect.
