

Northeast Philadelphia

State-of-the-Art Center

This center was specifically designed for children with autism and other neurological and behavioral concerns.

This treatment center provides ABA therapy services and programs and includes:

- A specially trained and compassionate team dedicated to patient care.
- A vibrantly themed indoor play area featuring sensory-friendly toys and spaces to help children develop a range of skills, including communication and socialization.
- Individual and group treatment rooms for both 1-on-1 and small-group interaction.

Inquire About Services

Our knowledgeable and compassionate care coordination team is available to guide families in accessing autism evaluations and ABA services. We are in-network with many insurances including Medicaid for ABA services. A complete list is available on our website.

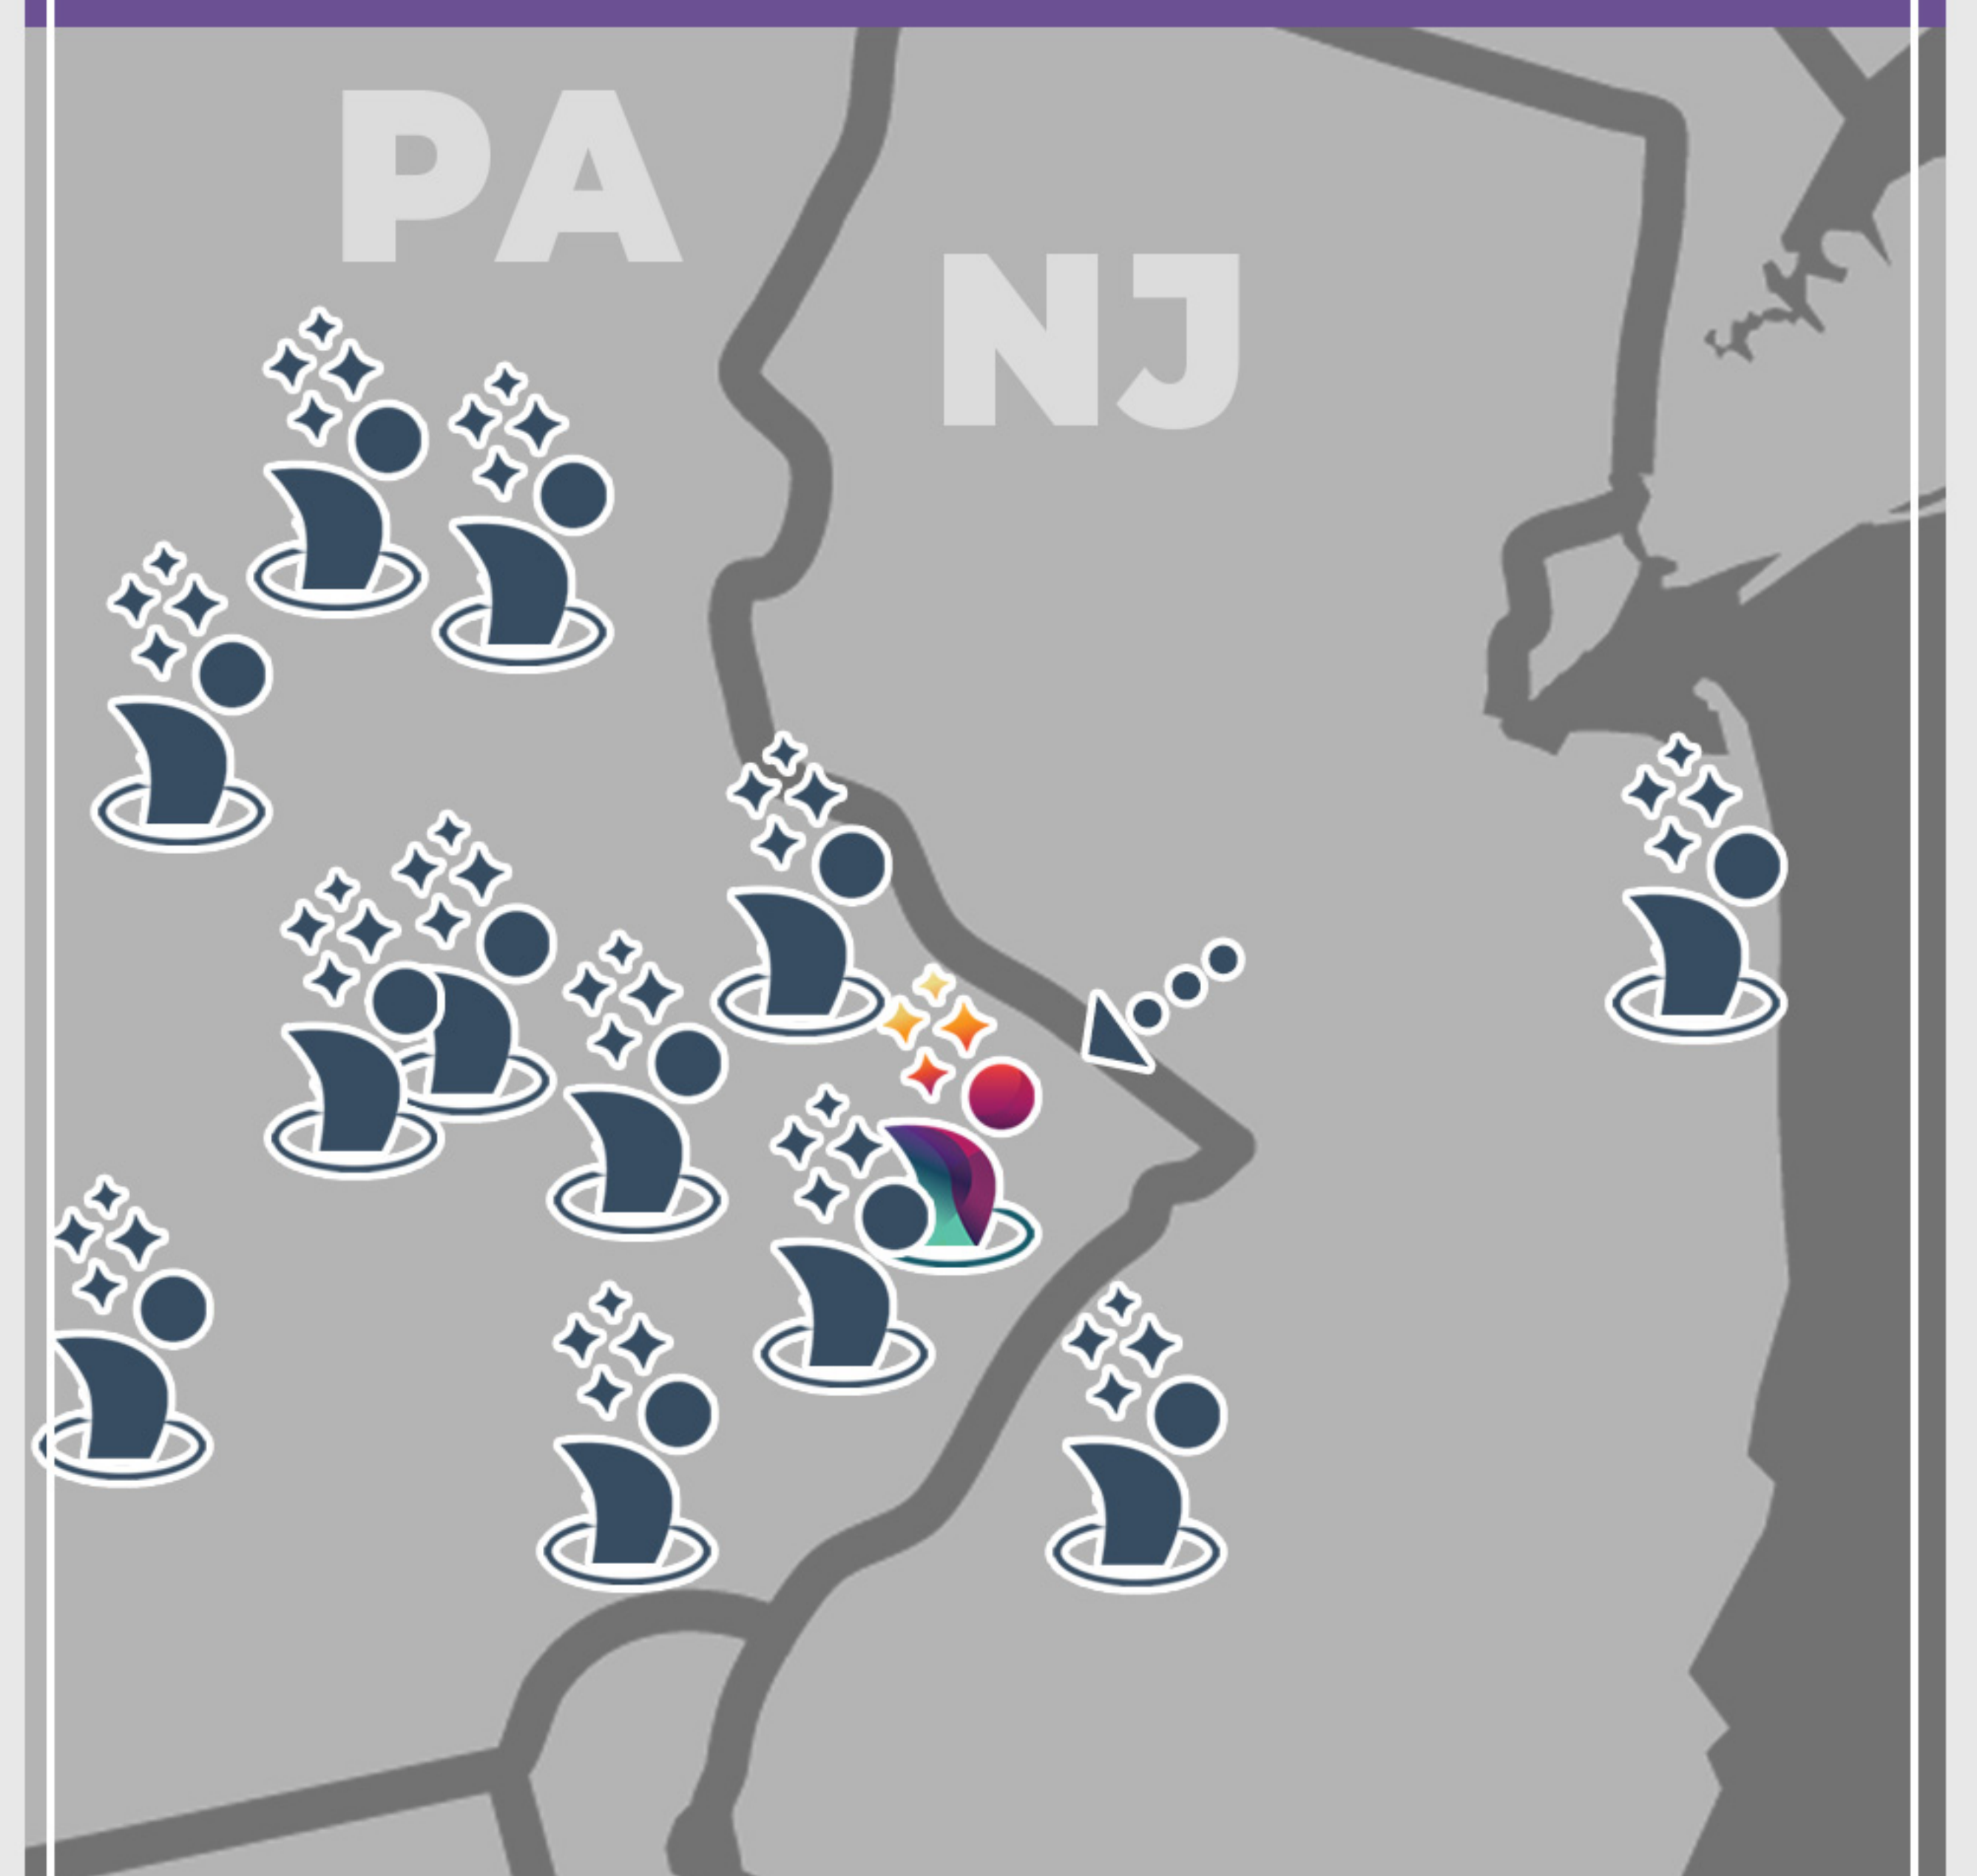

Our medical team provides neurological and developmental evaluations, along with medication management (dependent on insurance).

Our psychology team provides biopsychosocial assessments and written orders for families to access ABA services.
